STORIE DI SETA COLLECTION

Storie di Seta is Ferragamo's new line of universal fragrances that brings together olfactory creations and the House's silk heritage.

Giardini di Seta, Giungle di Seta, Savane di Seta and Oceani di Seta come to life in distinctive essences, bound together by a signature accord: Filo di Seta. The fragrances can be mixed together freely to create one's own, most personal perfume.

Valuing experimentation, this line exhibits woody and musky boosters, two rollers that enhance the fragrances.

A unique ritual of self-expression, Storie di Seta is a journey between inspiration and reality.
